

Training programm MEU / Учебная программа МЭИ

Date	Lectures	Time	Lecturer	Target group
	Revolution of generator circuit-breakers with vacuum technology			
12.03.18	General introduction, function and design of a generator circuit-breaker and the different types of quenching mediums.	180	Nils Anger	Students/ Customers
13.03.18	Differences between oil, air blast, SF6 & vacuum	180		
23.04.18	Short circuit calculation in power plant networks	90	Hong Urbanek & BU MS	Students/ Customers
23.04.18	Short circuit calculation in power plant networks - Tutorial	90		
24.04.18	Vacuum generator circuit-breakers in general and from Siemens	90		
24.04.18	Vacuum generator circuit breakers from Siemens - practice on real GCB	90
