SHANGHAI UNIVERSITY OF ELECTRIC POWER

1st International Energy and Electricity Market Business Decision Simulation Competition

International Energy and Electricity Market Business Decision Simulation Competition is an event for international students organized by Shanghai University of Electric Power (SUEP). The event will gather the brightest minds in energy and electricity market business to solve various business problems and network with like-minded people. The simulation platform is provided by CESIM from Finland and is capable to support 21 different languages in the world.

The 1st International Energy and Electricity Market Business Decision Simulation Competition was held in 2019. 41 teams participated the preliminary rounds. 10 university teams participated the finals. 2 teams from SUEP, one is Chinese student team and the other is overseas student team. The other 8 university teams are from 5 countries and different universities, which are shown below.

- Batangas State University(Philippines)
- Suranaree University of Technology(Thailand)
- Nakhonphanom University (Thailand)
- University of Peradeniya (Sri Lanka)
- University of Moratuwa (Sri Lanka)
- Sri Lanka Institute of Information Technolog
- Singaperbangsa University of Karawang (Indonesia)
- Vietnam Electric Power University

For the finals, all the participants gathered together. They compete and

communicate with each other, and learn to apply the relevant knowledge into practice. Participants appreciate the competition and cooperation through simulation. Through the simulated business environment, students can feel the importance of China policy to the global economic environment and learn more about China. Participants, from Vietnam Electric Power University, said we found that learning in the electricity market could be so interesting...
