

SECURITY FOR SOCIETY ●○○○

POLITECNICO  
MILANO 1863

24.02.2021

WEBINAR

# ENVIRONMENT SECURITY

Environmental security represents a fundamental requirement for human lives and wellbeing, with important economic fallouts. Current issues related to the treatment and management of wastes and of polluted sites, as well as air quality and viral threats are discussed in this session.

## PROGRAM

FROM 9 AM TO 11 AM CET

*Chairperson:* **G. Bolzon**, Politecnico di Milano

**A. Guadagnini**, Politecnico di Milano

*Introduction*

**M. Grosso**, Politecnico di Milano

*From the treatment of waste to the management of resources:  
approaching the circular economy*

**S. Saponaro**, Politecnico di Milano

*Sustainability in the remediation of contaminated sites:  
evaluation at a preliminary stage*

**G. Lonati**, Politecnico di Milano

*Air quality management perspectives in urban areas*
